Driver licence	Car
Equipment experience	Tractor(satisfactory), Car(good)
6. Hobbies and interests	
Gym, studying English, reading books.	
7. Job start date	
As soon as possible	

Autobiography

My name is Serhii. I am 31 years old. I was born in 1988 in a small township Pryazovske in Ukraine. I have a small family. My mother works as a teacher of geography and my grandmother is a nurse at a local hospital. I'm divorced and I have a daughter. My daughter is 7 years old.

I spent my childhood in the village. I have enough experience in taking care about domestic animals and I can feed, water, brush, clean up after them and vaccinate. I really enjoy spending time with animals!

I studied at secondary school. I was good at Natural Sciences and was fond of Biology. After finishing school study I had to start working in the grocery supermarket. I started work like security and moved up the career ladder to a deputy manager.

Later I had to move in the village and help my granny to look after her animals. She had some cows and I did all hard work with cows. At that time I decided to go in for farming.

In 2016 I entered Agrarian lyceum, the faculty of veterinary. I was a day – time student. Three years of study were the best for me because I got the opportunity to train on modern European farm.

Last summer I went to Denmark. There I got through an internship on a dairy farm. My farmer's name was Peter Engemann. He was a true professional and taught me how to work with cows and calves. I got skills in

feeding and watering cows and calves,

farrowing help,

milking,

evaluation of the quality of feeding,

treatment of sick animals,

giving of vitamins,

working on small tractors,

cleaning and disinfection of stables,

repairing works.

I have a good recommendation letter from my Danish farmer.

At my spare time I go to gym. I lead a healthy lifestyle and don't have any bad habits. Also my hobby is studying English and reading books.

I have a driving license and can drive a car. Either I have an experience of working with small tractors.

I learn fast and always try to learn something new. I am responsible and executive.

First of all, the trip abroad for me is gaining new experience in dairy farming and expanding my horizons, and at the second it will give me opportunity to communicate with international people and to see their style of life. I would like to get a permanent job. Looking forward to meeting with my new employer!

Regards,

Serhii
