Driver licence	Car
Equipment experience	
6. Hobbies and interests	
Football	
7. Job start date	
As soon as possible	

Autobiography

My name is Oleksandr Pryhodiuk. I am 28 years old. I was born on the 24-th of May, 1992 in the township Tsuman, Volyn region. I am married. My wife's name is Olha, she is a teacher. Also I have got a son, his name is Vladyslav. My father Valentyn works for a trade company as a driver and my mother Liudmyla is a seamstress. My older brother Valentyn works for a trade company too.

My height is 176 cm, my weight is 71 kg.

From my childhood I have been connected with country style of life. I still help my parents with their household where they always have some animals. We keep some pigs, a cow, and a lot of poultry. My parents taught me all basic skills in breeding domestic animals.

From 1998 till 2009 I studied at secondary school. When I finished school I attended English courses. Then I wanted to earn my own money and I tried myself in different jobs. I worked with children in the camp, after that I worked as a seller, as a worker at the plant.

I went to Poland in 2014 and 2015 for seasonal work. I gathered cherries there.

In 2016 I decided to enter Agrarian lyceum, the faculty of veterinary and stockbreeding. It was very interesting for me to work with animals at the training farm where I had my practice. I cleaned stables, fed animals, looked after newborns, helped a vet with treatment.

In 2017 I got a great chance to do the practice in Denmark. This practice helped me foster my professional skills to a great extent. There I performed the following duties: vaccination, treatment of sick pigs with medicines, feeding pigs, piglets and hogs, doing castrations, insemination, cleaning and washing stables, doing small repairing in stables.

I have got good English language and understand French. Also I speak Ukrainian and Russian. I lead a healthy lifestyle. As for my hobby I like sport, especially team kinds of sport like football and volleyball.

Now, when I am sure in my ability to work on the farm effectively, I am looking for a job abroad. I am eager to get new experience and apply my gained skills at one of the pig-breeding farms. International experience is always very useful. That's why, I would be grateful for such an opportunity.

Regards,

Oleksandr
