Autobiography

My name is Mazurok Oleksandr. I was born on the 7th of July, 1988, in the city of Novovolynsk, Volyn Region, in the family of miners. My father was a locksmith, he's retired now. My mother is a laboratory assistant at the mine. Also I have a sister. She's older than me. She has her own family and lives with her husband and two daughters.

My height is 187 cm, and my weight is 103 kg.

In my childhood I often live with my grandparents and help them with household. They had a big household, like chickens, geese, rabbits, pigs and a cow. My granddad taught me to do household work, like feed the animals, water them, clean up after them.

From 1995 to 2003 I studied at secondary school. In 2007 I graduated from college. After that I went to work to Denmark. I worked at the pig farm from October 2015 till October 2016. There I had some duties: doing insemination, giving medicine, making vaccinations, feeding, washing stables, doing castrations to piglets, cleaning. In 2017 I returned to Ukraine and had a work at the dairy farm. My duties were taking care of the animals, milking, feeding and watering, identifying of mastitis, distributing straw on stalls, cleaning up and disinfection. In 2018 I decided to enter Professional Agrarian Lyceum the faculty of Veterinary. During my studying I had a lot of practice at the training farm. I really got good experience and practical skills there.

I have good English, also speak Ukrainian, Russian, Polish. I have a driving license and I can drive well. In my free time I like playing football, listening to music, watching films.

I think the potential of Ukraine is not discovered enough and now agriculture of our country experiences not the best times. Now I'm looking for a job abroad to apply my knowledge and experience and get new ones. I think it's the best way to expand my outlook, to communicate with international people.

Regards,

Oleksandr
