Driver licence	Car
Equipment experience	
6. Hobbies and interests	
Reading books, hiking, gym, cycling.	
7. Job start date	
As soon as possible	

Autobiography

My name is Oleksandr. I'm 30. I live in the village of Stebliv, Cherkasy region. I am only child in the family. My mother Olena is a nurse at the local hospital. My father Ihor is a builder.

My height is 181 cm, my weight is 83.

Since my childhood I spend my weekends and summer holidays in the village in my grandparents'. I always helped my grandparents to take care about their domestic animals. They keep a cow, pigs and chickens. Since childhood I realized that I want to connect my life with the farm activity and veterinary.

I was studying at school from 1996 till 2006. After finishing my school study I was taken to the army and served for some years. When I came back home I stayed at home because I couldn't find a job. At that time I kept some pigs and sold meat.

Talking about my education, I have completed three years of study at Professional Agrarian Lyceum. I studied from 2016 to 2019 and gained good theoretical knowledges in veterinary medicine. During my studies I also gained practical skills. I have a year of practice on a modern pig breeding farm in Denmark. I started practicing in December 2016 and finished in December 2017. There I was taught how to do

feeding and watering animals,

castration,

vaccination of piglets in a farrowing department,

helping with insemination of sows,

checking piglets in a klimastald,

moving sows and piglets,

helping with selling of piglets,

disinfection and washing of stables.

In Denmark, I have completed a practical course in correct handling of medicine.

My main hobby is veterinary and developing skills in animal care. I also like reading books and doing sports.

I can speak English well, and I hope get a higher level of English in the future. Also I speak Ukrainian and Russian.

I have a driving licence and I can drive a car.

The goal of my trip to Finland is to put into practice my knowledge and experience. I am always enthusiastic to learn and undertake new challenges. I am friendly, helpful and polite. Pretty believe work on a pig farm in Finland will help me to get new experience and definitely to become a professional.

Regards,

Oleksandr
